

SHRINK SLEEVE LABELS TAMPER EVIDENT SHRINK BANDS

SHRINK SLEEVE LABELS

MAKE YOUR PRODUCTS JUMP FROM THE SHELF

Shrink sleeves are an ideal solution for marketing your products to make them stand out on the shelf. Shrink sleeve labels cover your container from top to bottom and can be designed with 360 degrees of full color graphics, text, and even unique finishes. With full reverse print capabilities, our shrink sleeves are the perfect solution for stimulating shelf appeal to your entire product line, even when using the same container for all of your products.

GET YOUR PRODUCT NOTICED, NO MATTER WHAT IT IS

We provide economical shrink label solutions to a wide variety of users who manufacture or co-pack beverages, foods, nutritional supplements, personal care items, pharmaceutical products, household chemicals and more. AFM provides users with a choice of film grades and materials that offer substantial savings in operational costs and increased production speeds.

- Up to 9 colors on PVC, PET-G, PLA, OPS
- Rotogravure, Flexographic, or Digital Printing
- Available in roll stock film for automated machinery or individual cut bands for manual applications

- .03mm - .06mm gauge film available
- Lay flat sizes from 20mm - 400mm
- Supply your own graphics, or let us design your label

TAMPER EVIDENT SHRINK BANDS

LOOK GOOD WHILE PROTECTING YOUR PRODUCTS

Tamper evident shrink bands are a fast and easy way to secure your containers and add value and protection to your products. Shrink bands are used in a variety of industries from personal care products, cosmetics, foods, and pharmaceuticals. Our shrink bands are available in a variety of colors and can include perforation for easy removal.

COST EFFECTIVE SECURITY

In addition to providing a secure way to protect your product, tamper evident shrink bands provide an attractive and clean appearance to your packaging. Security bands are also the most cost-effective choice for keeping your products safe and secure. AFM provides a variety of tamper evident shrink bands for virtually any application.

- Up to 9 colors on PVC, PET-G, PLA, OPS
- Opaque, clear, tinted, or printed graphics
- Lay flat sizes from 20mm - 400mm

- Order in-stock bands or request custom printing
- Available with vertical and horizontal perforations or pull tabs

AUTOBANDIT TAMPER BANDS

INTRODUCING THE AUTOBANDIT TAMPER BAND APPLICATOR

AFM's AutoBandit automatic tamper-evident band applicator is designed to apply tamper bands to round, rectangle, oval, or unique containers up to 9.85" in diameter. The AutoBandit is a fully functioned applicator and shrink tunnel that applies the band and shrinks it in one pass. The applicator and tunnel are combined in one machine with a small footprint to easily fit in most production environments.

AutoBandit replaces hand applied preforms with the automatic application of tamper-evident bands.

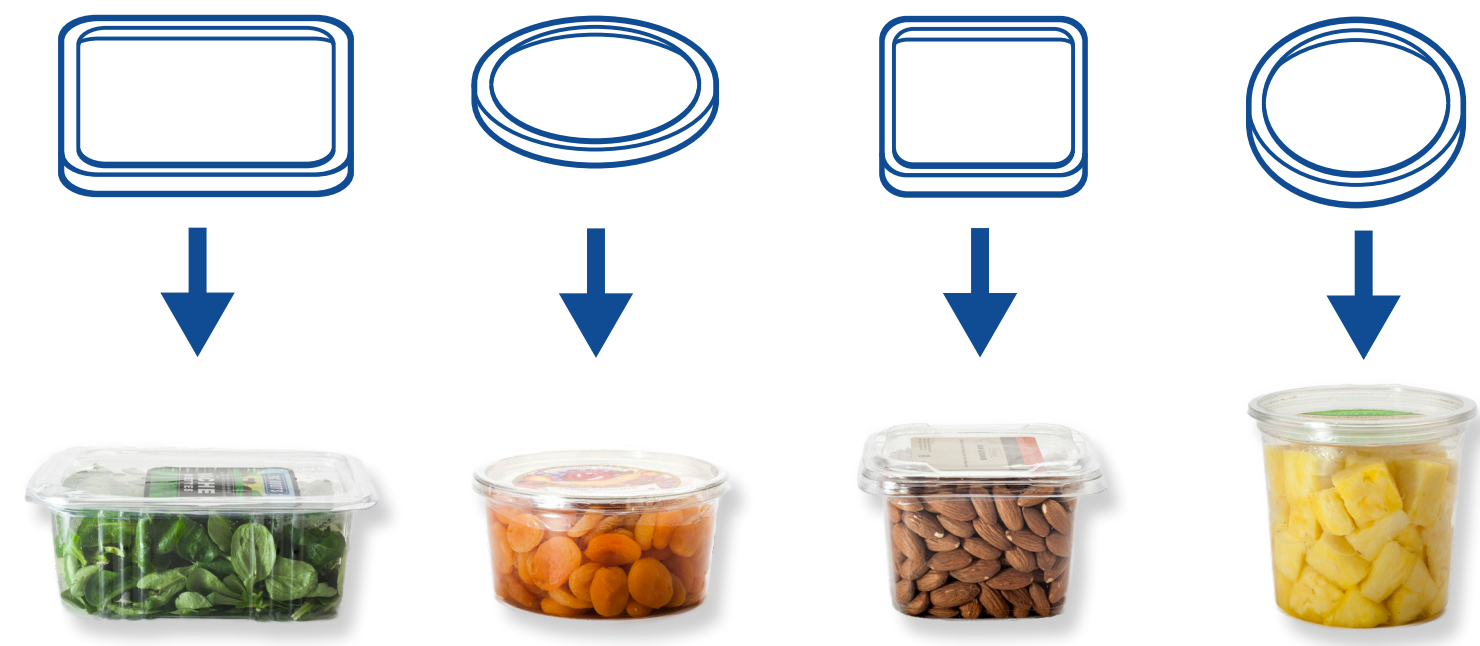

AUTOMATE YOUR TAMPER BANDING PROCESS

The system features three zones: sealing, preheat, and shrink. First, the shrink band wraps around the leading edge of the product, is then sealed, cut, and preheated to hold the band in place prior to a final shrink inside the tunnel. Popular applications for this machine include dairy, bakery, pre-made food and deli trays, candy, nuts, pharmaceutical, nutraceutical, toys/games, and more.

Reduce labor and inventory costs with the AutoBandit automatic tamper-evident band applicator!

- Uses single wound rolls of PET film
- Wide range of product sizes between 3.15" - 9.85" in diameter, and up to 5.9" in height
- Available in film widths from 1.5" - 4.0"
- Clear film, or printed graphics available

ABOUT US

EQUIPMENT YOU CAN COUNT ON

American Film & Machinery is a leading manufacturer and supplier of heavy-duty shrink sleeve labeling equipment, shrink tunnels, and shrink sleeve consumables. AFM's shrink sleeve labeling equipment includes a complete line of shrink sleeve labelers, tamper evident banding equipment, steam tunnels, electric tunnels and infrared tunnels. AFM's labelers range in performance from 50 to 500 products per minute, offering a product and price point no matter what the application demands.

QUALITY IS IN THE DETAILS

In addition to our proven experience, our quality control procedures ensure that the product you receive will run on your equipment without issue. Uniquely positioned as a labeling equipment provider as well as a film supplier, we understand both ends of the production spectrum and assume accountability for the entire labeling application.

CONSUMABLES TO MAKE YOUR PRODUCT STAND OUT

AFM also offers a complete line of shrink sleeve consumables, including shrink labels and tamper evident bands to make your product look good while providing cost-effective security. AFM is supported by two of the largest film converting plants – one with 7 rotogravure presses and up to 9-color stations and compatible converting equipment, and another plant with an 8-color 32" central impression flexo press.

AFM is committed to keeping your production rolling and eliminating down time

AFM – headquartered in Brooklyn Park, Minnesota – is a single source supplier of all of your Shrink Sleeve Labeling needs

THE RIGHT SOLUTION

With over 40 years of experience in the shrink labeling industry, rely on American Film & Machinery to provide the right solution to your product labeling and security tamper banding needs. AFM products are sold through a network of authorized dealers, fully trained and capable to install, train and service our equipment. Contact us today for the name of your local reseller and find out how we can benefit your operation.
