

**UPGRADE YOUR
PRINTING TECHNOLOGY**

THE FUTURE IS HERE

Complete
Printing System
**LESS THAN
\$9,100!**

Stay ahead of the game with Squid Ink's latest closure printing technology! The CoPilot UV LED system offers cutting-edge features, superior reliability, and seamless integration with Kwik Lok's® 872, 865, 893, 088 and 910 Automatic Bag Closing Machines.

IT'S TIME TO UPGRADE TO COPILOT

If you're still using Squid Ink's AutoPrint or TurboPrint systems, it's time for a change! These legacy systems were introduced over 15 years ago and have reached the end of their lifecycle. The CoPilot UV LED system is the modern solution designed to meet today's printing demands for bakeries and produce packers.

WHY CHOOSE SQUID INK'S UV LED PRINTING SYSTEM?

Squid Ink's UV LED curing technology delivers a low-maintenance, high-performance solution for printing sell-by dates, suggested list prices, and 2D barcodes on bakery bag closures and other products.

Key Benefits of UV LED Ink Technology:

- No Drying Until Needed - Ink remains fluid until cured by UV LED light, preventing clogging and reducing maintenance.
- Instant Curing - No waiting for ink to dry—print and go!
- Permanent & Durable - Smudge-proof, waterproof, and resistant to sunlight, moisture, and temperature changes.
- Eco-Friendly - Virtually no VOCs, making it ideal for food applications.
- Cost-Effective - Low upfront investment with typical ink usage yielding 1.5 million prints per cartridge—just 20 cents per 1,000 closures!

UPGRADING FROM OTHER PRINT TECHNOLOGIES? HERE'S WHY YOU SHOULD SWITCH!

If you're currently using thermal transfer (TTO), continuous inkjet (CIJ), or thermal inkjet (TIJ) systems, Squid Ink's UV LED printing offers major advantages:

- No ribbon breakage - Say goodbye to costly downtime.
- Less maintenance - No frequent ribbon or cartridge replacements, maximizing uptime.
- Smudge-proof & fade-resistant - Ensures lasting prints that won't rub off.
- Lower maintenance - No more thermal transfer ribbon issues affected by bread crumbs or dust.
- Cost savings - More affordable printing systems and consumables.

PROVEN PERFORMANCE YOU CAN TRUST

Squid Ink's printing solutions are trusted by some of the nation's largest bakeries, offering reliability and performance you can count on. Plus, we provide TIJ and CIJ solutions for direct printing on bakery bags—so your markings stay with the product, even if the closure is discarded.
