## TRACEABILITY MADE SIMPLE FOR **BAKERY PRODUCTS**

### CLOSURE MARKING & CODING MADE EASY

#### Why Choose Squid Ink's UV LED Printing System?

Squid Ink's UV LED curing technology delivers a low-maintenance, high-performance solution for printing sell-by dates, suggested prices, and 2D barcodes on bakery bag closures and other packaging materials.

### KEY BENEFITS OF UV LED INK TECHNOLOGY

- **Low Maintenance Printing** - Ink stays fluid until cured by UV LED light, preventing dry out and reducing maintenance.
- **Instant Curing** - Prints cure immediately—no waiting, no smudging!
- **Permanent & Durable** - Smudge-proof, waterproof, and resistant to sunlight, moisture, and temperature changes.
- **Eco-Friendly** - Virtually no VOCs; a safe, sustainable solution for food applications.
- **Cost-Effective** - Typical ink yield of 1.5 million prints per cartridge—just 20¢ per 1,000 closures!

# UPGRADING FROM OTHER PRINT TECHNOLOGIES?

## Here's Why Bakeries Are Switching from TTO, CIJ, and TIJ

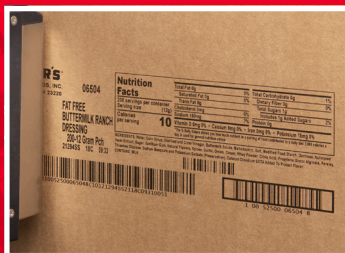

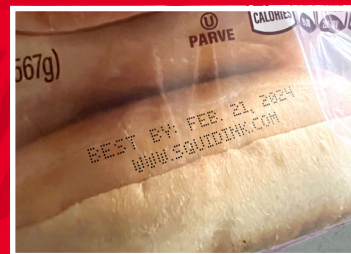

- **No Ribbon Breakage or Changes** - Eliminate costly downtime and waste.
- **Less Maintenance** - Fewer parts, fewer stoppages, more uptime.
- **Smudge-Proof & Fade-Resistant** - Your prints stay crisp and readable.
- **Clean Operation** - No dust or crumbs affecting printheads.
- **Ease of Operation** - Simple setup and little day to day maintenance
- **Lower Operating Costs** - Affordable equipment and consumables reduce total cost of ownership.

## PROVEN PERFORMANCE YOU CAN TRUST

Squid Ink provides reliable, high-quality printing solutions for:

- **Bag closures and closure tape**
- **Bakery bags**
- **Corrugate shipping cases and trays**
- **Direct-to-package marking applications**

Trusted by some of the nation's largest bakeries, Squid Ink systems deliver durability, consistency, and value—keeping your products traceable and compliant from oven to shelf.

## READY TO UPGRADE YOUR PRODUCT MARKING SYSTEM?

Review the enclosed details or contact us today to see how Squid Ink can simplify and strengthen your bakery traceability process.
