L-SEALERS

L-SEALERS PERFORMANCE SERIES

RELIABLE SEMI-AUTOMATIC L-SEALING
EASTEY Performance Series L-Sealers offer the durability needed to handle a variety of applications at a cost-effective price.

STANDARD FEATURES

- Designed to seal polyolefin, polyethylene, and PVC shrink films
- All-welded main frame from 12 gauge steel
- Seal head equipped with gas shock head return
- Dual locking magnet clamps apply consistent pressure across seal bar

L-SEALERS PROFESSIONAL SERIES

EVERLASTING SEMI-AUTOMATIC L-SEALING

EASTEY Professional Series L-Sealers are the ultimate workhorse for your most abusive sealing applications.

STANDARD FEATURES

- Designed to seal polyolefin, polyethylene, and PVC shrink films
- All-welded main frame from 1/4" cold rolled steel
- Seal head equipped with gas shock head return
- Dual locking magnet clamps apply consistent pressure across seal bar
- Stainless steel film clamps
- EM2016 and EM2028 available in Stainless Steel for food, beverage, and other wipedown applications

ESA L-SEALERS PROFESSIONAL SERIES

PNEUMATIC L-SEALERS

EASTEY ESA Professional Series L-Sealers are the ultimate workhorse for your most abusive sealing applications.

STANDARD FEATURES

- Dual palm pneumatic seal head activation
- Designed to seal most polyolefin, polyethylene, and PVC* shrink films
- All-welded main frame from 1/4" cold rolled steel
- Built-in drawer for tools or spare parts
- Seal head casting equipped with head return cylinder
- Stainless steel film clamps hold film in place while sealing

AUTO L-SEALER PROFESSIONAL SERIES

RELIABLE AUTOMATIC L-SEALING

EASTEY Professional Series Automatic L-Sealers offer the durability of functionality needed to handle a variety of applications efficiently.

STANDARD FEATURES

- Designed to seal most polyolefin, polyethylene, and PVC shrink films
- Side seal size 30", 40" or 50"; front seal size 50", 70", or 100"
- Side mounted Power film unwind ensures proper tension of film
- All-welded main frame from 1/4" cold rolled steel

COMBO UNITS

COMBO UNIT VALUE SERIES

RELIABLE SEMI-AUTOMATIC L-SEALING
EASTEY Value Series Combo Unit offers a L-sealer and shrink tunnel on a common frame for simple setup, perfect alignment and mobility within the plant.

STANDARD FEATURES

- Designed to seal polyolefin or PVC shrink films
- All-welded main frame from 12 gauge steel
- Seal head equipped with gas shock head return
- Dual locking magnet clamps apply consistent pressure across seal bar
- Automatic cycle timing with adjustable dwell time
- Solid state temperature control adjustable for a variety of films

COMBO UNIT PROFESSIONAL SERIES

RELIABLE SEMI-AUTOMATIC L-SEALING
EASTEY Professional Series Combo Unit offers a L-sealer and shrink tunnel on a common frame for simple setup, perfect alignment and mobility within the plant.

STANDARD FEATURES

- Designed to seal most polyolefin, polyethylene, and PVC shrink films
- All-welded main frame from 1/4" cold rolled steel
- Live roller or stainless steel mesh belt conveyors
- Sealed bearings (not bushings) on drive and idler shafts
- Adjustable digital solid state temperature control for a variety of films

BUNDLERS

AUTOMATIC BUNDLER PROFESSIONAL SERIES

SMALL FOOTPRINT AUTO BUNDLING
EASTEY EB25A Automatic Bundler is designed and built to give you all the features needed for positive sealing a wide variety of films.

STANDARD FEATURES

- Designed to seal most polyolefin, polyethylene, and PVC shrink films
- Small footprint – 61.5"L x 41.8"W x 71.3"H
- 25" wide hot knife seal provides a consistent "bulls-eye" closure
- Upper and lower powered film unwind for smooth feed of film
- 12" product pass through height accommodates 11" tall product
- Fixed lower seal bar provides a clean consistent seal and accommodates random height products(standard), pancake, or arrow inserts

AUTOMATIC BUNDLER PROFESSIONAL SERIES

RELIABLE AUTOMATIC BUNDLING
EASTEY Automatic Bundlers offer the reliability needed to provide a "bull's-eye closure" on trays, individual, or multi-packed products with or without operator involvement.

STANDARD FEATURES

- Designed to seal polyethylene films
- 35", 50", 70", and 80" wide hot knife seal system
- 22" adjustable product pass through height
- Infeed product guides where necessary
- Upper and lower powered film unwind for smooth feed of film
- Film loading from left or right side
- All-welded main frame from 1/4" cold rolled steel

TUNNELS

SHRINK TUNNELS PERFORMANCE SERIES

RELIABLE SHRINK PERFORMANCE
EASTEY Performance Series Shrink Tunnels offer the reliability needed to provide positive shrinking of a wide range of films at a cost-effective price.

STANDARD FEATURES

- Designed to shrink most polyolefin, polyethylene, and PVC shrink films
- All-welded main frame from 12 gauge steel
- Live roller or stainless steel mesh belt conveyors; optional "dead" roller conveyor for polyethylene
- Sealed bearings (not bushings) on drive and idler shafts
- Adjustable digital solid state temperature control for a variety of films
- ET1610 available in Stainless Steel for food, beverage, and other wipedown applications

SHRINK TUNNELS PROFESSIONAL SERIES

EVERLASTING SHRINK PERFORMANCE
EASTEY Professional Series Shrink Tunnels are the ultimate workhorse for your most abusive shrink applications.

STANDARD FEATURES

- Designed to shrink most polyolefin, polyethylene, and PVC shrink films
- Large chamber for faster production time
- All-welded main frame from 12 gauge steel
- Live roller, "dead" roller, or stainless steel mesh belt conveyor standard; optional plastic belt conveyor
- Sealed bearings (not bushings) on drive and idler shafts
- Adjustable digital solid state temperature control for a variety of films
- ET2008 available in Stainless Steel for food, beverage, and other wipedown applications

BUNDLING TUNNELS PERFORMANCE SERIES

RELIABLE SHRINK PERFORMANCE
EASTEY ETB Series Bundling Tunnels offer the reliability needed to provide positive shrinking and are designed specifically for bundling applications.

STANDARD FEATURES

- Designed to shrink polyethylene film
- All-welded main frame from 12 gauge steel
- 39" chamber length to ensure proper shrinking of film
- Dead roller conveyor
- Sealed bearings (not bushings) on drive and idler shafts
- Adjustable solid state temperature control for a variety of films

BUNDLING TUNNELS PROFESSIONAL SERIES

RELIABLE SHRINK PERFORMANCE
EASTEY ETB Series Bundling Tunnels offer the reliability needed to provide positive shrinking and are designed specifically for bundling applications.

STANDARD FEATURES

- Designed to seal polyethylene film
- All-welded main frame from 12 gauge steel
- 78" chamber length to ensure proper shrinking of film
- High temperature belting resists wear
- Adjustable digital solid state temperature control for a variety of films
- Four-directional air flow provides positive shrinking

VALUE SERIES

AUTO L-SEALER VALUE SERIES

RELIABLE AUTOMATIC L-SEALING

EASTEY Professional Series Automatic L-Sealers offer the durability of functionality needed to handle a variety of applications efficiently.

STANDARD FEATURES

- Designed to seal most polyolefin, polyethylene, and PVC shrink films
- Soft start infeed and outfeed conveyors to reduce shifting of products
- Variable speed infeed and outfeed conveyors
- Motorized seal height adjustment for various product sizes
- Film loading from left or right side

SHRINK TUNNELS VALUE SERIES

RELIABLE SHRINK PERFORMANCE

EASTEY Value Series Shrink Tunnels offer the reliability needed to provide positive shrinking of polyolefin film at a cost-effective price.

STANDARD FEATURES

- Designed to shrink most polyolefin shrink films
- Live roller conveyor with silicone coated rollers provides a smooth finish
- 15kW heater with adjustable temperature control
- Tunnel temperature range between room temperature and 365°F (185°C)
- High velocity blower motors circulate air volume inside tunnel
- Variable air flow and air velocity for a variety of products and applications

EASTEY CONVEYORS VARIABLE SPEED CONVEYORS

CONVENIENT PRODUCT TRANSPORT

EASTEY Conveyors are an ideal solution for case coding and product transport.

STANDARD FEATURES

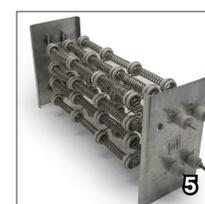

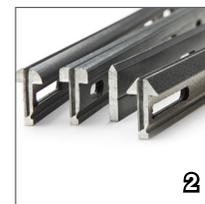

- Variable speed drive
- Seamless self-tracking belt
- Small space-saving footprint
- Pre-drilled mounting plate for printer brackets (standard conveyor includes one plate)
- 1/4" cold rolled steel
- Adjustable conveyor height
- Safety cover over pinch points
- Shelf for various storage

SPARE PARTS

EasteY offers a complete list of replacement parts for your existing shrink packaging equipment. Most of which are stocked and ready for same day shipment.

1. *Tempature Controls*
2. *Hot Knife Replacements*
3. *Conveyor Motors*
4. *Casters (Stainless Steel)*
5. *Heater Banks*
6. *Blower Wheels*
